Allowable Subject Matter

1. Claims 1-18 are allowed over prior art of record because the cited references either alone or combined do not disclose the claimed invention:

A system for notifying a driver of a vehicle of imminent environmental conditions, comprising:

a control panel removable position inside a vehicle including transceiving means for identifying imminent environmental conditions, and further including a male member of pyramid shape directly connected to a bottom surface of the control panel;

a plurality of transceivers disposed at predetermined locations exterior of a vehicle housing said control panel, selectively sending a plurality of input signals to the transceiving means for identifying an imminent environmental condition;

a mounting bracket for connecting the control panel to a vehicle including a base plate having planar top and bottom surfaces, the top surface having a surface area less than a surface area of the bottom surface, the mounting bracket further including a female receiving member of pyramid shape being directly conjoined to the top surface of the base plate; and

a speaker connected to the control panel for providing audible identification of an imminent environmental condition.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

Williams et al disclose a self-aligned safety sensor having pyramid shaped bracket for mounting. [US. 6,891,480]
